

hp OpenView storage data protector 6.0

Platform & Integration Support Matrices

Version: 1.0

Date: July 4, 2006

NOTE: For the following Data Protector components, only those combinations of Data Protector component and Operating Systems are supported for which the corresponding Operating System version is supported by the respective vendors.

supported operating systems	
Data Protector component	Supported operating systems
Cell Manager	<ul style="list-style-type: none"> Windows XP PRO (32-bit) Windows 2000 Windows 2003 (32-bit) Windows 2003 (64-bit) (x64) HP-UX (PA-RISC) - 11.0², 11.11^{2, 3}, 11.23^{2, 3} HP-UX (Itanium) -- 11.23^{2, 3} Solaris 8, 9, 10 SuSE Linux Enterprise Server 9 (64-bit) (x64)

- 1 Push installation not possible, need to be installed locally
- 2 NIS+ is supported in a DNS environment
- 3 HP-UX 11.11 is HP-UX 11i version 1.0.
HP-UX 11.23 is HP-UX 11i version 2.0
- 4 For Solaris – SunOS version compatibility, please refer to the Sun website.
- 5 Includes support for Redhat Enterprise Linux Advanced Workstation and Enterprise Server if applicable
- 6 MoM GUI is not supported on HP-UX 11.23 (Itanium) and Linux (x64).
- 7 In case of Reflection X, version 14 is supported.

Platform restrictions for supported operating systems		
operating system	supported processor platform	
HP-UX	PA-RISC	(HP-UX 11.0, 11.11, 11.23)
	Itanium	(HP-UX 11.23)
Windows	x86 and x86_64	(for 32-bit Windows)
	Itanium and x86_64	(for 64-bit Windows)
Linux	x86 and x86_64	(for 32-bit Linux)
	Itanium and x86_64	(for 64-bit Linux)
Sun Solaris	SPARC	
OpenVMS	Alpha and Itanium	

NOTE: For the following integration matrix, only those combinations of applications and Operating Systems are supported that are supported by the respective vendors.

supported online database and application integrations		
databases	supported versions

Baan IV ⁶	<ul style="list-style-type: none"> Baan IV on Oracle, Informix, Microsoft SQL Server and Sybase (see versions above) 	

- ¹ Oracle 9i / 10g covers all released versions of Oracle 9i / 10g e. g. 9.x.x.x and 10.x.x.x
- ² Includes support for Redhat Enterprise Linux Advanced Workstation and Enterprise Server also
- ³ DB2 EEE (Partitioned databases) is not supported.
- ⁴ In Lotus Domino/Notes R6 (6.0.x), there is a bug in the Domino/Notes backup API. This affects incremental backups, but has been resolved by IBM. IBM provides this fix to their customers on request. The customer can get the fix for their version of R6 from IBM and use it with DP. The customer should open PMR referencing PMR# 66931,004,000 and SPR# WMUH5PJNN4 directly with Lotus Customer Service and mention that a hotfix is required.
- ⁵ Data Protector uses the official SAP backup/restore API (BRTTOOLS), which is available only in conjunction with the Oracle database. Therefore, Data Protector support is only dependent on the SAP Brtools version (as supported by SAP in combination with various SAP Kernels) and not on the SAP Kernel version.
- ⁶ Baan users with Oracle, Informix, Microsoft SQL Server or Sybase databases can back up their application data by following the instructions for the integration of Data Protector and their database in the HP OpenView Storage Data Protector 6.0 Integration Guide.
- ⁷ SQL server hotfix Q912021 is required for this support

Following are the details of the OpenView Applications that can be integrated with Data Protector. This integration however is an application level integration & not a database level integration unless specifically mentioned by means of a footnote.

HP StorageWorks XP ¹	<ul style="list-style-type: none"> HP StorageWorks Business Copy XP/Continuous Access XP
EMC ²	<ul style="list-style-type: none"> EMC TimeFinder/SRDF
HP StorageWorks Virtual array ³	<ul style="list-style-type: none"> HP StorageWorks Business Copy VA
HP StorageWorks EVA ⁴	<ul style="list-style-type: none"> HP StorageWorks Vsnap/ Snapclone/ Snapshots

¹ Please refer to the "hp OpenView Storage Data protector 6.0 Zero Downtime (Split-mirror) backup & Instant Recovery support matrix for HP StorageWorks Disk Array XP" for further details on the integration.

² Please refer to the "hp OpenView Storage Data Protector 6.0 EMC split-mirror backup integration support matrix" for further details on the integration.

³ Please refer to the "hp OpenView Storage Data Protector 6.0 Zero Downtime Backup & Instant Recovery support matrix for HP StorageWorks Virtual Array" for further details on the integration.

⁴ Please refer to the "hp OpenView Storage Data Protector 6.0 Zero Downtime Backup support matrix for HP StorageWorks Enterprise Virtual Array with SMI-S Agent" for further details on the integration.

⁵ This support is true if Zero Downtime Backup feature is used. If the Zero Downtime backup is not used, then there is no limitation for the supported arrays. In such a case the hardware would be transparent to Data Protector.

other supported applications

application agents	supported databases / integrations	
HP OpenView Storage Data Protector Open File Manager	<ul style="list-style-type: none"> HP OpenView Storage Data Protector Open File Manager 9.x: 	Windows 2000 Windows 2003 Windows XP NetWare 6.5
Citrix Metaframe ¹	<ul style="list-style-type: none"> Citrix Meta Frame version 1.00 Service Pack 3: 	Windows 2003
Vmware	<ul style="list-style-type: none"> Vmware ESX Server 2.1.x Vmware ESX Server 2.5.x 	
HP OpenView Network Node Manager	<ul style="list-style-type: none"> HP OpenView Network Node Manager 6.2: HP Open View Network Node Manager 7.01: 	HP-UX 11.0 Windows 2000 HP-UX 11.0, HP-UX 11.11 Solaris 8 and 9

¹ If the Citrix Database is based on one of the Databases for which online integrations is supported, then that integration is used for online backup of the Citrix database. Otherwise Open File Backup should be used for this purpose. In case of backing up the data other than Database, normal Disk Agent should be used. Also Data Protector Cell Manager and Citrix can co-exist on the same server.

Clusters Support: All supported DP components for a platform are supported in Cluster also, unless specifically mentioned.

supported clusters
